## Publications

### **Efficient Way Of Web Development Using Python And Flask**

International Journal of Advanced Research in Computer Science (IJARCS) August 8, 2015

Authors: Armash Fankar, Musab Jummal, Aaraf Murade, Prof. P. S Lokhande, nabeel hawa

Web is the most frequently used networking aid which satisfies the requirements of all types of users; it provides a solution for any type of problem definition. While developing a web portal the appearance of web portal makes a development more critical. The good appearance of a web can easily attract more number of visitors which is a success of web portal. For designing and developing such well structured and with the good appearance of web we have to choose a proper technology. The technological needs of satisfying a good web portal can be fulfilled by "python" and "flask".

---
